

GHG & Energy Management Software

Drive Business Growth with GHG & Energy Reporting

Part of the VelocityEHS ESG Solution

Caring about the environment and having the skills to effectively manage your greenhouse gas (GHG) emissions or energy consumption are two very different things.

GHG and energy management data collection can be a nightmare, especially if you're newer to ESG.

VelocityEHS GHG & Energy Management software automates and simplifies the collection, validation and reporting of your GHGs and energy data. Easily manage shifting environmental policies as well as investor and supply-chain partner requirements.

Core Capabilities:

- + GHG management
- + Energy management
- + Automated utility data sync
